#### REMARKS

By the present amendment, the claims have been amended in order to enter similar amendments that were made in response to the Written Opinion but were not entered by the Examiner. In general, the claims have been amended in order to specify that the "propargylamine" is of the general Formula I as recited in the claims. The claims have also been amended in order to replace "z is an integer ranging from 0 to 5" with "z is 1". Support for this amendment can be found in the specific propargylamines recited throughout the application. The claims have further been amended to delete the "use" claims. For ease of referral, new claims 52-69 generally correspond to original claims 34-51 and new claims 70-80 generally correspond to original claims 22-33. Original claims 1-21 have been deleted.

The amendments have been made without prejudice and for the purposes of advancing prosecution. Applicant reserves the right to file any of the deleted subject matter in a further application. The Preliminary Amendment does not contain new matter.

Entry of the above preliminary amendment is respectfully requested. Please calculate the claim fee for the application once the amendment has been entered.

Respectfully submitted,
